

GETTING TO KNOW YOU AGAIN.....

Name: Lois Martin Brown.

Home: 15009 Westpoint, Sterling Heights, MI
48313.

Email address:

Dream home location: On a lake further south where it is warmer. Maybe Florida next door to Shirley Gross Vernia so we could get into trouble all over again.

Interests: Travel, grandchildren, church and piano. Of course, my husband has priority.

Favorite Drive In: Totem Pole.

Favorite smell: Freshly mowed grass and outside after a rain.

Favorite sound: The lapping of water coming up on the beach.

What would you change about yourself: My Age (how can I be 68 years old when my mind is still in my 20s).

What surprised you 50 years after graduation: Finding out I had a leaky Mitral Valve in my heart and ending up last December with open heart

surgery and staying 3 weeks because of complications. I also had A-fib and they couldn't get my heart back in rhythm. This whole thing was a big shock as I was never sick.

What would you have liked to have invented: A cure for cancer.
