

## GETTING TO KNOW YOU AGAIN.....

Name: Don J. Doolittle.

Home: 1246 E. Walton Blvd #310, Pontiac, MI 48340.

Email address:

Dream home location: Summer: mountains MT/ID;  
winter: n/w lower michigan.

Interests: Spending time with my kids and granddaughter. Fly fishing. Work (financial services)

Favorite Drive In: Name? On Woodward north of 13 mile west side (maybe gone).

Favorite smell: Steak grilled over charcoal w/hickory chips (my custom rub on it).

Favorite sound: A gurgling mountain stream where only other sounds are nature's wild.

What would you change about yourself: Since I can't shake off 30 or 40 years, I work out at the YMCA every other day to at least slow things down a bit. When I started almost two years ago, I had three goals: 1) get my BP under control & eliminate meds – done; 2) eliminate recurring pain in my right shoulder – done; 3) flatten out a B belly gut – still a long way to go.

What surprised you 50 years after graduation: Not much other than what seems to be a rapidly increasing tendency to forget what the HELL I'm doing,....where were we??

What would you have liked to have invented: Other than the fountain of youth? A renewable, non-polluting, inexpensive energy source. The internet. A universal language acceptable to all.
