

GETTING TO KNOW YOU AGAIN.....

Name: Anne (Grose) Ethridge

Home: 5751 Island Dr, Goodrich, MI 48438

Email address:

Dream home location: Where I live now on Big Fish Lake in Hadley, MI.

Interests: Most forms of nature - walking in the woods. Finding beautiful natural things that I can use in decorative form about my home and property. Seeing our 9 – almost 10 grandchildren. Again, the “woods” going on hikes with them. I love teaching them and learning from them on these walks. Antiquing-primitive items. Reading—historical/biographies for the most part by Irving Stone. Gardening. I love digging in the earth, planting, etc. Canoeing on our lake. I basically enjoy life and being outside is my favorite place to be. I

think I really was born about one hundred years later then I would have liked.

Favorite Drive In:

Favorite smell: The ocean.

Favorite sound: Birds first thing in the morning and the sound of strong winds.

What would you change about yourself: I'd like to be younger, firmer. Have closer relationships with my three sons. I'd love to slip back in time and do a few things differently, but alas, time has passed and we must accept what we have sown.

What surprised you 50 years after graduation: That it has come to pass so quickly.

What would you have liked to have invented: Not invented – but invested in McDonald's stock when we had the opportunity in the 60s.
