Interests: After finishing Wayne State Med School I moved to Los Angeles and have been practicing Psychiatry here for the past 36 years. I recently remarried and we have a fabulous 4 1/2 year old son! No other children. I love to travel and have been all over the world, especially more primitive cultures. Last year we went on a safari in East Africa. I've explored the Amazon, Papua New Guinea, Nepal, India, Egypt, etc. I collect primitive art and contemporary art. I have a large collection of Art Deco (1920's) Belgian ceramics. But my greatest love is the Detroit Tigers. I collect Tiger memorabilia, as well. I seem to be obsessed with Rotisserie fantasy baseball also. I still love the music of the 40's through the 60's. I go to a lot of concerts and also see movies, mostly foreign. Life is pretty thick and I don't see retirement ahead for me at all.
